TIMBERSTRAND® LSL—THE RIGHT BUILDING SOLUTION

Trus Joist® TimberStrand® LSL Wall Framing

Wall framing solutions made from TimberStrand® LSL are straight, free of knots and resist twisting, shrinking, and bowing after installation. This helps cut down on callbacks due to sheetrock cracks. TimberStrand® LSL Wall Framing solutions also help cabinets and countertops install flush without the hassles of shimming. The flat, stable surface they create for tile installations reduces the chance of tile and grout cracking.

- No sorting, no shimming needed
- Enhance craftsmanship while minimizing labor costs
- Improve finish results and enjoy fewer callbacks
- Backed by a limited lifetime warranty
