## THERMA-TRU<sup>®</sup> DOORS EXTERIOR DOORS

With a front door by Thermo-Tru, not only will you see an increase in comfort, energy efficiency and performance, you will also see an increase in curb appeal. In fact, you can increase the perceived value of your home just by adding a Thermo-Tru entry door system. Thermo-Tru fiberglass entry doors look as beautiful as wood but perform with the durability of steel. The quality and attention to detail make a grand entrance for your home.

**Kwikset**

### KWIKSET DOOR KNOBS

Kwikset offers the high-security ANSI Grade 1 980 Deadbolt which features SmartKey™ technology and BumpGuard™. The patented design of SmartKey provides enhanced protection against lock bumping! The BumpGuard component of a SmartKey lock incorporates a patented side locking bar which replaces the traditional pin and tumbler design, to provide protection against lock-bumping techniques. Another innovative feature of SmartKey technology is that it gives you the ability to re-key your lock in less than 30 seconds while still providing superior key bumping security.

We stock Tylo, Juno, Tustin, Balboa and Austin styles. Some styles available in brass, nickel and Venetian bronze.

**\$5<sup>00</sup> off** Per Roll

# IDEAL AMERI-CANA ROOFING

Adaptable to any environment, our popular Ameri-Cana panel is suitable for roofing or siding applications on agricultural, residential, light commercial or light industrial building. It's ideal as a roofing sheet for long and low rafters (as low as 3/12). Ideal Roofing's Ameri-Cana panel offers superior strength with a strong 80,000 PSI full-hard steel core and five specially designed 3/4" high ribs on 9" centers. Superior strength means savings on wood or steel purlins for your customer (consult your load table).

Weather tight Overlap - Ideal Roofing's Ameri-Cana Panel provides better protection against leakage with its built-in anti-syphon groove. This tight-fitting overlap design allows for drainage through its anti-syphon groove if water is forced inside as a result of capillary action. This feature makes the Ameri-Cana Panel ideal for use as a roofing sheet for long and low rafters (as low as 3/12 pitch).
